

## Plum Creek Bike & Nature Trail

We will begin our Trail journey at the Robert Mattke Park on the West edge of Fredericksburg.

From the west end, the Trail heads north under the Hwy 18 bridge, winds along Plum Creek to the east into Fredericksburg. You will wind along corn or bean field along the creek and into a wooded area which is also along the creek.

The Trail will cross North Washington Avenue and you will enter the City Park. The City Park gives you a place to sit and relax in the shade of the big, old maple trees. Also, there is a place for the kids to play.

From the City Park, you will cross Jackson Avenue, to another wooded area that takes you to Glenwood Lane thru the tall, shimmering pine trees.

After the walk thru the pine trees, you cross the Blacktop and head towards Prestein Park (with Parking available to the Trail Access). You will cross the Trail underneath the east Hwy 18 Bridge. From there you will see the Old Country School House (District No. 1 - 1854).

Continue on our way thru the Vineyard and the cornfields. You can head back to Town by the Meinerz Dairyland Swim Pool or continue on thru the cornfield and cross South Washington Avenue. You will continue on through the cornfield and eventually cross the Blacktop on the west edge of Town and head on towards Pioneer Cemetery and will wind thru the field and end back at Mattke Park.

The Trail offers you over 5 miles of scenic biking and / or walking. 2.5 miles of this Trail is blacktopped. The rest of the trail is a bed of crushed rock.

We hope that you will enjoy your journey on our Trail.
